New York Life Contributed \$48,000 to the Campaign Fund in 1904.

Same Thing was Done in 1900 and 1896—Startling Revelations of George W. Perkins Before New York Legislative Committee.

| "Mr. Chairman, I act as I think right. I do not think whether I am acting for the New York Life or J. P. Morgan & Co., I follow my conscience and do what I think is right."

The senator was unmoved, and asked:

Assemblyman Rosers broke in and said: committee probing life insurance companies' methods, and his testimony was panies' methods, and his testimony was ture, Mr. today's session of the special legislative ment of finance as applied by insurance

Campaign Contribution.

The climax of the day came when Mr. Perkins was asked concerning an entry of \$48,702 in a ledger, marked "ordered paid by the president." The check was made out payable to J. P. Morgan & Co., and Mr. Perkins frankly stated it was a contribution to the national Re-publican campaign committee and had been paid to Cornelius N. Bliss. Mr. Perkins said:

This payment was made after very careful deliberations. It must not be considered an ordinary contribution to the campaign fund. It was paid because we felt that the assets of the New York Life Insurance company would be jeopardized by a Democratic

Mr. Perkins said contributions were also made in 1900 and 1896.

Pursuing the check inquiry further, Mr. Hughes brought out that this ex-penditure was never brought to the attention of the finance committee, the witness terming it a "purely executive action." It was charged against cash on the books of the Hanover bank office or financial department.

Made Payable to Morgan.

Mr. Perkins here interposed:
"I would like to make a statement, The fact that the check is drawn to J. P. Morgan & Co. has no significance. I paid out the money, and it was merely because of a convenience of repayment that the check was made payable to J. P. Morgan & Co."

"When we desire a certain security we go to a firm and tell them if they will take half of a quantity of bonds we will take the other half. These people some times say, we would like to do this, but it is inconvenient at this time, we have not the money. As we are looking to loan money, we say: If you will be responsible for your share we will loan you carry the rest at bond interest on joint account."

Mr. Perkins explained the method of the work of the money and withdraw our bonds and carry the rest at bond interest on joint account."

"What other contributions to political funds have been made by the New York Life."

"None to my knowledge."

Syndicate Transaction.

Mr. Hughes asked Mr. Perkins to explain how on the books in the syndicate action by which \$800,000 in bonds was sold on Dec. 4, 1901, and bought back Jan. 2, 1902, there was shown on the debit side of the account \$160,000 and on the credit side \$800,000, and Mr. Perkins was asa... as to a number of temporary loans that appeared on the books' but he would not testify without the details and data, which he will turnish at a later session.

Represented Both Ends.

Assemblyman Rogers then expressed his desire to ask a few questions about the sale of bonds on Dec. 31 to J. P. Morgan & Co. and the purchase on Jan. 2.

The president ordered the resolution referred to the business committee.

The morning session was fully occupied with routine matters. The report of the committee on the treasury department, the report of the home department, the report of the home department and the address from the prudential committee were presented, followed by addresses from three missionaries on young people's work. At the afternoon session the report of the committee on corporate members was followed at a late hour by the election of new members and officers.

Resolution Tabled.

Seattle. Sept. 15.—By a vote of 46 to 10, the American board of foreign missions has decided to table all resolutions on the question of "tainted morey." Dr. Gladden made a long speech in favor of his resolution on the subject.

CINCINNATI, O., Sept. 15.—At least five persons suspected of having yellow fever arrived here today over the Queen & Crescent line, and are now held in quarantine. The train brought 200 refugees from Lake Providence, La., and Tallulah, La., who were fleeing from the yellow fever.

Dr. Clark F. Davis, health officer of this city, being notified by General Passenger Agent Rinearson that he was bringing about 200 people from the south in a special, sent Dr. B. F. Lyle and an assistant to board the train at Lexington and examine the people.

All the other passengers of the trains were allowed to go to their destinations, but the names and addresses of all were taken, and they can be reached by the authorities if needed. Reports that a large number of these were also sick were investigated by physicians during the day.

Fifty of the party of 200 came to this ity absolutely penniless, though each arried a quantity of hand baggage. Con-ressman R. E. Randsdale of Lake Provdence, La., was on the train, and he and his family rendered every assistance to he stranded group.

Train Stopped For Them.

At Tallulah, La., seventy-five persons boarded the train, but they did not get on at the main station. Knowing they would have difficulty in getting out of town, which is in the heart of the fever district, they walked out a mile and a half and the train stopped for them.

Later in the day, after the physicians had beeen able to make a more thorough investigation, the five suspected cases were declared to be genuine yellow fever and were isolated and arrangements made for proper care.

"The five refugees who were taken to the branch hospital have developed unmistakable symptoms of yellow fever," said Health Officer Davis tonight.

Mild Cases.

"The cases, however, are in the mild-st form. No one in Cincinnati need be larmed by the presence of these cases if rellow form alarmed by the presence of these cases of yellow fever.

"I expect that hundreds, and perhaps thousands, of people from infected districts will reach this city in the next few weeks. Whenever it is deemed advisable from the condition exhibited by the people they will be detained from three to six days to watch developments. If by that time yellow fever symptoms fail to appear they will be given their liberty."

Water Enough For Fire.

There's water enough in that one

Crowds watched the fire engine a work. It was simple enough, and ye t brought wonder. The steamer was borrowed from the department. It has been held in rese lent efficiency to the fire depart ment, for with steam up and a pair of the water department's horses at-tached, it was ready for instant use at any time an alarm might come With the steamer the chief lent ing departments, who have combined along with the mayor to solve the sprinkling problem. A span of street department horses drew the steamer to the corner of State and First South streets. Across the gutter where the curbing rises high on both sides at the corner, a sack of sand was thrown. The big suction pipe was dropped in the dammed up water. line of hose was run out. The pumps were started. And from the nozzle leaped a hissing, tearing stream. It spurted high in the air, the full width of the street. The men at the

nozzle fought with the wriggling hose and deflected the point. The water tore

gine was shifted along the gutter side And in this manner a good part of the business section got its thirst menched. This plan of street sprinkling, de ded on largely as the result of Mayor Morris' study of the matter, is comprehensive. Yesterday it was proved to be practicable. And now the city officials the fire, street and engine

artments are positive that Salt Lake treets will be sprinkled from this time Grass and Trees Get Water.

The plan is, in brief, this: Getting ater from the gutter ditches. These And this water will be used for stree sprinkling, wetting down the city and county building lawn and Pioneer quare, and giving moisture to trees.
